This is something of an ADVENTURE. Reading OPERA and BALLET as we do from cover to cover at each issue, we have noticed how the advertisements are closely related to their contexts. To break in with a suggestion that a BARKER Loudspeaker is the best medium through which to re-create in ear and mind the authentic likeness of voice and music seems almost a sacrilege! But when we remember that so many of our musicianly friends who do not know a kilocycle from a condenser, and so many of your technical colleagues who cannot distinguish a bar from a semi-breve, unanimously agree that the sounds our 148a and 150 units produce are most natural and pleasing, we take courage. So here we are! Drop us a line for further information.
